

Innovative design extraordinary value custom manufactured

The Cimarron Advantage!

EXTRUDED FLOOR

- I-beam cross members at 6" centers
- Interlocking Extrusion
- Double tongue & grooved
- Integrated cross members & decking

TIG WELDING

- Uniform, clean welds
- Through proper design, exterior welding is minimized

DOORS

- Strongest, most durable door in the industry.
- Massive 7" x 1 1/4" tubular door frame extrusion
- Keyed-alike, Flush Mounted Door Latches
- Welded on Hinges with Grease Zerts
- Weather Stripping recessed into door frame
- Heavy Duty Safety Bar Grills

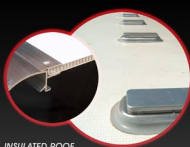

SIDE POSTS

- 2" X 4 3/8" tubular posts
- 40% stiffer than typical 2 1/2" x 1" posts
- 60% stiffer than common C-channel or Hat channel

INSULATED ROOF

- 1/2" Thick Fiberglass reinforced panel
- R3 Thermal Insulation factor
- Up to 20% cooler versus Aluminum sheet roof
- Quiet & Dent-resistant

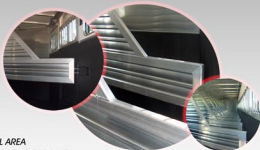

L.E.D. LIGHTS

- Double tail lights
- Rear Light bar with built in turn signals, brake lights, and marker lights
- SAFETY! 10 times brighter and use 90% less current than traditional incandescent lights

STALL AREA

- 1 1/2" thick Divider Framework
- Divider Slam Latches recessed into stall wall
- Rubber Kick Mat up to bottom of windows
- 15" x 34" Windows on rump wall for maximum air flow

BOLT ON FENDERS

- Efficient to replace when damage occurs
- User friendly, less cost incurred to replace fenders
